DATA FLOW DIAGRAMS
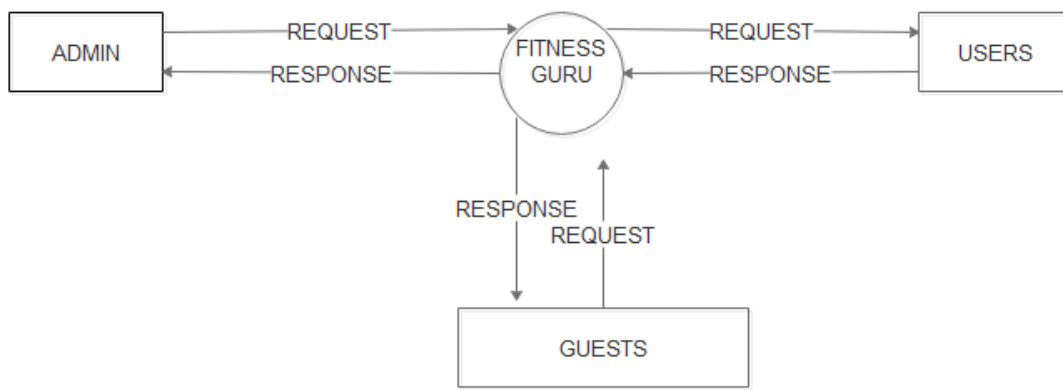

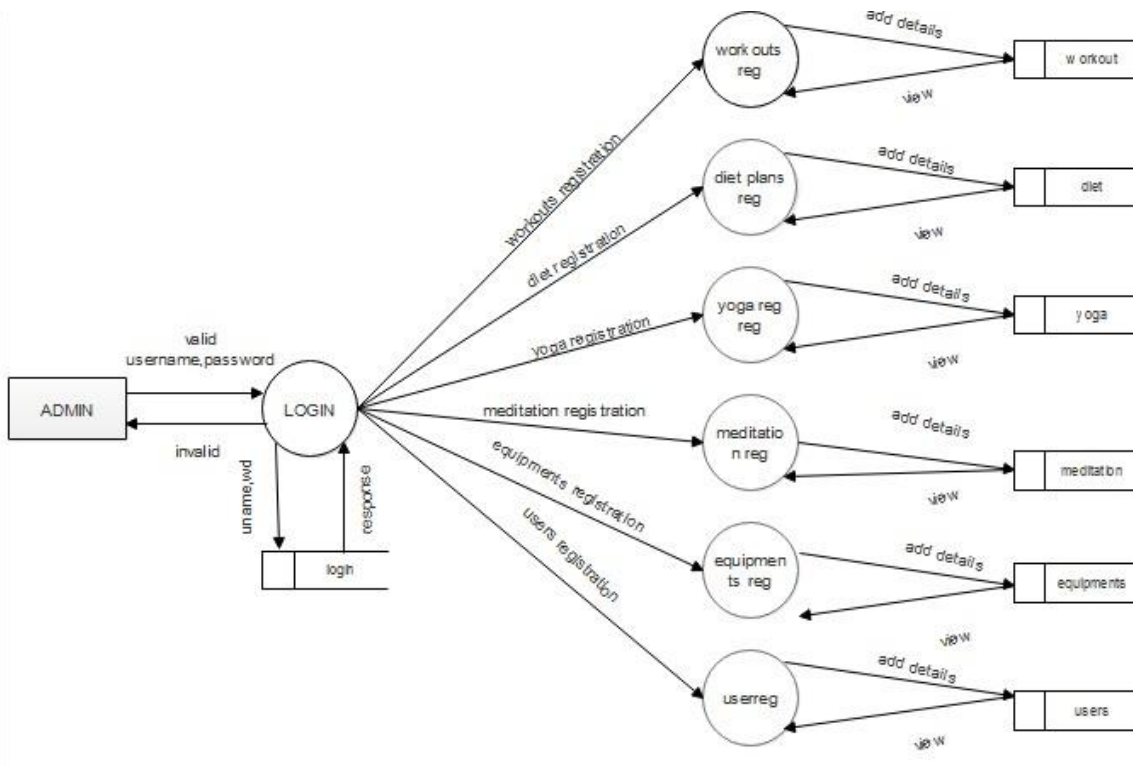

## LEVEL 0

LEVEL 1

ADMIN

LEVEL 3

EXTERNAL USERS

LEVEL 2

USER

DFD showing: USER entity connected to LOGIN process via "valid username,password" and "invalid" flows. LOGIN connects to login data store via "uname,pwd" and "response". LOGIN distributes to processes: workouts (workouts view), diet plans (diet plan views), yoga (yoga views), meditation (meditation views), equipment (equipments views), userreg (users registration). Each process connects to its data store via "view": workout, diet, yoga, meditation, equipments. userreg connects to users via "add details" and "view".
